

LAUREL SHEET METAL PRODUCTS (LSMP) SUPPLIER QUALITY CLAUSES

General Quality Clauses

The Supplier must notify LSMP if any of the following requirements cannot be achieved before acceptance of a LSMP purchase order.

QA 1	Machining and/or manufacturing suppliers must furnish a certificate of conformance with the product being shipped. If the supplier purchases material or performs processing on the products ordered, then the supplier must furnish material and processing certifications. Manufacturing plans, inspection reports and documents related to the products purchased must remain on file with the supplier and be available upon request. The record retention requirements for supplier's states that records must be retained for 10 years minimum unless extended retention times are required by LSMP or its customers, these additional retention times will be noted on LSMP purchase orders when required.
QA 2	Documented first article inspection reports shall be submitted to Quality prior to the beginning of production. The supplier assumes all financial responsibility for material, rework and/or replacement when production of parts is begun without first article inspection approval from LSMP.
QA 3	AS9102 First Article forms are required.
QA 4	This Purchase Order contains requirements for the approval of product and services, methods, processes, and equipment and/or requirements for the competence or qualifications of the personnel used to fulfill this order. If specific approvals exist for the release of products and services, they will be listed on LSMP purchase order. See the LSMP purchase order for the specific approvals that are required.
QA 5	LSMP requires machining and/or manufacturing suppliers to have a quality management system in accordance to AS9003, AS9100, or ISO9001. LSMP may make conditional exceptions based on supplier survey information or applicable customer requirements.
QA 6	LSMP has documented the identification and revision status of the applicable specifications, drawings, process requirements, inspection/verification instructions and other relevant technical data on the supplier's purchase order. See the purchase order for specific details related to the applicable specifications, drawings, process requirements, inspection/verification instructions and other relevant technical data.
QA 7	LSMP has documented the applicable requirements for design, test, inspection, verification (including production process verification), use of statistical techniques for product acceptance, and related instructions for acceptance by the organization, and as applicable critical items including key characteristics on the supplier's purchase order. See the purchase order for specific details related to the applicable requirements for design, test, inspection, verification (including production process verification), use of statistical techniques for product acceptance, and related instructions for acceptance by the organization, and as applicable critical items including key characteristics.
QA 8	LSMP has documented the applicable requirements for test specimens for design approval, inspection/verification, investigation and/or auditing on the supplier's purchase order. See the purchase order for specific details related to the applicable requirements for test specimens (e.g., production method, number, storage conditions) for design approval, inspection/verification, and investigation or auditing.
QA 9	The supplier must notify LSMP of nonconforming product by phone, email or fax when a nonconformance has been identified. The supplier must obtain LSMP's approval of the supplier's disposition of nonconforming material.
QA 10	The supplier must notify LSMP of changes in the product and/or process, changes of suppliers, and/or changes of the manufacturing facility location. The supplier must obtain LSMP approval in writing to change any contract requirement. If LSMP agrees to the change, only customer-designated or approved suppliers, including process sources (e.g., special processes) may be used.
QA 11	The supplier must flow down to its supply chain the applicable LSMP requirements including customer requirements.
QA 12	The supplier shall use industry standard, commercially reasonable efforts to prevent and or remove foreign objects that might be considered a potential source of Foreign Object Damage (FOD) from all LSMP products prior to shipment.
QA 13	In addition to LSMP's right of access, the supplier agrees to right of access for LSMP customers, and regulatory authorities to the applicable areas of all facilities at any level of the supply chain, involved in the order and to all applicable records in the performance of this contract.
QA 14	Suppliers are required to notify quality prior to transferring any work to a new facility. LSMP will determine (prior to the transfer) if the supplier may perform the transfer of work.
QA 15	Any delay in shipment for any reason has to be conveyed to LSMP quality by phone, email or fax as soon as the delay is known by the supplier.
QA 16	Requirements for the supplier to comply with executive order E13224. Supplier shall not engage in any transaction of any type with persons or businesses or organizations who commit, threaten to commit or support terrorism.
QA 17	All information in the contract must be held in confidence by the supplier and no third-party request for information will be authorized unless instructed in writing by a LSMP representative. When ITAR and/or government rated data is noted on the purchase order, the US government restrictions must be followed. If you have any questions concerning ITAR or government rating notify the company buyer. All concerns must be answered prior to you accepting this order.
QA 18	All processing suppliers that use conflict materials (Tin, Tantalum, Tungsten, and Gold) must ensure that these materials come from a conflict-free source per the Dodd Frank act section 1502. An EICC Reporting template must be completed and sent to LSMP before the first shipment of product to LSMP Co.
QA 19	LSMP monitors all suppliers' performance on an ongoing basis LSMP tracks on-time delivery (OTD) and product conformity (PC) from all suppliers. LSMP has established a minimum performance threshold of 95% product quality and 90% OTD. If minimum performance is not achieved by the supplier, supplier will be contacted by LSMP Management and corrective action will be requested.
QA 20	Supplier must have a process for training and detection of counterfeit products in order to prevent the use and proliferation of counterfeit products.
QA 21	Supplier must ensure that all its personnel are aware of their contribution to product or service conformity; their contribution to product safety; and the
